

REMARKS

In the Office communication dated April 21, 2004, the Examiner has requested under 37 CFR 1.105 a copy of the Open Source standard ARM that the inventor had in his possession, which was the enabling technology for this invention from the time the inventor would have needed to know what he was developing the code (Appendix A).

Applicant's representative herewith encloses a copy of Open Source standard ARM that the inventor had in his possession prior to the invention.

Applicant's representative believes the application is now clearly in order for examination.

Respectfully submitted,
David Arthur Stephenson
